¹ Prices, in nominal dollars, equal shipment value divided by quantity shipped. Value includes charges for advertising and warranties. Excluded are excise taxes and the cost of freight or transportation for the shipments.

Sources: • 1982-1992—Energy Information Administration (EIA), Solar Collector Manufacturing Activity, annual reports. • 1993 forward—EIA, Renewable Energy Annual, annual reports.

² Total shipments include all types of photovoltaic cells and modules (single-crystal silicon, cast silicon, ribbon silicon, thin-film silicon, and concentrator silicon) and internationally traded cells and modules. Shipments of cells and modules for space and satellite applications are not included.

³ Data were imputed for one nonrespondent who exited the industry during 1990. NA=Not available.
